

To assemble the game it is best to

- 1) Print on card stock
- 2) Print on paper, then glue the paper to some cardboard like a cereal box.

Pages 1 to 6 should be printed once and cut out. These contain the 6 tiers of the game board, the food tokens as well as the queen cards.

The 7th page contains the hand cards that are used for combat. One print out of this page is required for each player.

The rules are in a separate pdf and are not required to be printed.
