## Round:

Each round consists of 5 player turns

At the end of each round all Genetics cards will be put to your table from your hand

-You will play 5 cards, 6th card will be automatically played from your hand at the end of each round

At the end of each round you will calculate your own Genetic points together, winner is the one with most points

## Point Calculation:

Each Parent has their own dominating genes, which is Indicated on the upper right corner of each Parent Card

For each matching Gene in Genetics Card you get +1 point

If you get 2 of same Gene Parents, the +1 bonus will still stay +1

Example 1: you match a Green "C" Gene with Green C Parent you get +1 point (+1 -> +2, +2 -> +3, +3 -> +4)

Example 2: if you match a -1 Blue "D" Gene with Blue "D" Parent, the +1 point will change the -1 to 0 point (-2 -> -1, -3 -> -2)

Extra rule: Holy Trinity - Getting all the genetic cards "Humongous Boobs", "Biker's Butt" and "Swimmer's Lungs" gives you +3 points at the end of the round

## Winning round:

Winner of each round will get 1 "Ultimate Baby!!!"-token

## Winning the Game:

Player who first gets two "Ultimate Baby!!!"-tokens wins the game
