Look at another
player's goal,
then swap it with yours

Swap all cards from
one component space
with another

Pick a component space,
when resolving battery values,
treat negative as positive,
and vice versa

Pick a component space,
no-one can place cards on that
space until it's your turn

Look at another
player's goal,
then swap it with yours

Secretly look at the top card on
any component space, either:

Leave it there
OR
Move it onto another space

Pick another player's hand,
swap it with your hand

Pick a component space,
no-one can place cards on that
space until it's your turn

Pick a component space's die,
and re-roll it

Secretly look at the top card on
any component space, either:

Leave it there
OR
Move it onto another space

Pick another player's hand,
swap it with your hand

Pick a component space,
no-one can place cards on that
space until it's your turn

Pick a component space's die,
and re-roll it

Secretly look at the top card on
any component space, either:

Leave it there
OR
Move it onto another space

Replace your Goal card:

1 - Draw 3 from the Goals deck
2 - Choose one
3 - Shuffle the rest (and your
previous goal) back into the deck

Replace your Goal card:

1 - Draw 3 from the Goals deck
2 - Choose one
3 - Shuffle the rest (and your
previous goal) back into the deck

REACTOR CORE

Stabilise by placing -/+ cards to match the dice value

REACTOR TRACK

Moves up whenever a player completes a goal
